Our Regrets:

We are sorry that this issue of the paper is late. We took on the job of printing over 10,000 names of voters' lists on the strength of promises of extra printers' help which at the last minute was not forthcoming. Hence the regrettable delay in releasing this week's issue of the paper.

An Impressive Leader

One thing in particular has impressed us in the current election campaign.

That is, that despite the frantic armwaving and noisy accusations of the various political party leaders, Prime Minister St. Laurent has remained calm, but nevertheless vigorous and direct—a statesman rather than a politician.

That's why we particularly like the following editorial in the May 28 issue of the Toronto Star Weekly:

Canada's prime minister, the Rt. Hon. Louis Stephen St. Laurent, is a man of unusual personal charm. He is not pompous, does not stand on dignity, and is cordial to those who wish to see him on business. In short, he is a thorough gentleman. His courtesy is instinctive and not cultivated for political purposes.

UNIVERSITY PRESS BUREAU

The University of Alberta is to be congratulated for its formation of a Press Bureau.

Not only are the University's 11,000 graduates interested in hearing more about their Alma Mater, but the people of Alberta are interested in, and should hear more about, their University.

The University, besides being the province's cultural

centre, is the seat of much scientific research.

Its graduates are the trained citizens of Alberta who will aid this province in becoming more prosperous materially and culturally.

The people should hear more of their University, and the formation of the Press Bureau will undoubtedly ensure that they will.

Showers End Fire Ordeal

Weary Firefighters Rest After Two-Week Battle

Rain showers spreading over northern Alberta this week are expected to end one of the worst forest fire ordeals experienced in the north country.

By Wednesday, after three days of intermittent rain, forestry officials stated most Alberta forest fires were under control. Although rains were light in the northland, they were enough to aid weary firefighters bring the two big fires in the Lac la Biche and Lesser Slave Lake areas under control.

There was still a lot of work to be done, digging up smoldering ground fires, clearing lanes with bulldozers and rebuilding burned-down homes and installations. But, if luck held, no further major outbreaks were likely.

175 FIRES

The tinder-dry condition of the countryside since April had set off 175 fires this spring, forestry officials revealed. In the Slave Lake area alone, 15 families (74 persons) were made homeless by the fires.

As early as May 9 anxious government officials cracked down on fire regulations and finally enforced a ban on clearing lands by fire.

RAILWAY CUT

By May 11, 24 separate fires were being fought, with big blazes springing up west, north and east of Slave Lake. Spreading rapidly, the Slave Lake fires cut railway and telegraph links on the Northern Alberta Railway.

Twenty-five-mile-an-hour winds sprang up to fan the flames and by May 13, 15 families were burned out of their homes. Other serious fires sprang up in the Chip Lake area, southwest of Edmonton, the Lac la Biche district, High Prairie, Sturgeon Lake and Buck Lake.

A total of 400 men, backed by bulldozers, turned out to stop the wall of flame that swept through the tinder-dry forests. High winds whipped up flames in the High Prairie area and 11 miles of fire line were lost as fire jumped across fire guards ploughed with bulldozers.

By the week-end rain and snow helped a little but new fires were

reported at the first of the week.

Tolling crews of firefighters had fires under control at Breton, Whitecourt, Edson, Chip Lake, Grande Prairie and Peace River districts by the week-end.

In the Lesser Slave area, a fire line, nine miles wide in places, held the flames away from the best timber stands. On Saturday, slight rains eased the pressure and gave crews time to extend their fire lines.

Three new fires broke out in the Grouard, Fort Assiniboine and Lac la Biche districts but were kept under control. A steady down pour of rain Tuesday gave firefighters the final support they needed to bring the blazes under control.

Gas Pipeline Would Use 500,000,000 Cu. Ft. Daily

Announcement of plans to build a gas pipeline all the way from the Athabasca gas fields to B.C. and as far down the west coast as California has caused Albertans to stop and do a bit of thinking.

Albertans were aware that their natural resources are vast and some of the most abundant in North America. But the plans for the 1,400-mile gas pipeline to the coast was beginning to cause some concern.

Most Albertans wanted to see the province's natural resources developed and utilized to open up the west as a new industrial and commercial centre. They had seen the oil industry spring up overnight with all its accompanying prosperity and increased business.

Natural gas fields in Alberta have rivalled oil and coal in importance as fuel for the long, cold

winters. But natural gas, like oil, is only a limited resource and the plans for the new coast pipeline caused Albertans some doubt as to the future of gas as a fuel reserve.

30-INCH LINE

According to estimates by the West Coast Transmission Company the 30-inch pipeline, costing \$174,000,000 would pump out 500,000,000 cubic feet of natural gas per day to the Pacific Northwest and Northern California.

Officials predicted that once the gasline was built to Vancouver, Seattle, Tacoma and Portland, a duplicate line would have to be constructed. In addition a projected branch line would turn southeast at Ashcroft in B.C., and supply Vernon, Kelowna and the industrial centre of Trail.

To some citizens it seemed as if the pipeline would drain Alberta of its natural gas reserves in no time at all.

Political leaders, jockeying for positions in the coming federal election race were quick to reassure citizens of any doubts they

might have about Alberta's natural resources.

Social Credit Leader Solon Low, said he favored export of oil and gas from Alberta only as long as it was a surplus over and above the needs of the people in the province. "What we do insist upon," said Low, is that the Alberta government shall have undisputed control of both export and conservation so that the needs of the people can be filled first."

Importance of the gas problem to the province came out in reports that the government was considering holding a special summer session of the legislature to tackle the gas export problem.

Harper Prowse, Liberal leader in the legislature, had brought up the question of gas exports before February's session of the legislature closed. The Socreds had vaguely replied that a special session would be called if the "government deemed such a move necessary."

Last week, Premier Manning told newsmen a special session on gas exports may have to be called. No definite decision on the session would be made, he said, until the attorney-general's department prepares a report on export legislation.

Relocation of the Union Station and yards to the south edge of the city probably will be the last phase in the long range proposals to improve the heart of the Capital. The complete plan, shown in the above photo of the model, is for a large park surrounded by public buildings. First step will be the construction of a new bridge over the Rideau Canal between the present Plaza and Laurier Ave. bridges (top and bottom) to relieve congestion at the Plaza and divert heavy traffic away from Wellington Street in front of the Parliament Buildings. The bridge will be a joint federal-municipal project, the city providing the approaches and the government building the bridge. Funds are available in Parliament's initial \$2,500,000 grant to the National Capital Fund last year. The plan recommends location of Ottawa's proposed new city hall on one of the bridge approaches, but the city has yet to decide on a site. The photo shows a suitable type of building at the east end of the new bridge (right). Large building lower left is the proposed National Institute of Fine Arts which would house, among other cultural institutions, the National Art Gallery of Canada. Peter Schmaltz
Reports

BEISEKER — Mrs. Schmaltz and myself left for Schounavan, Sask., on May 13th to visit our son-in-law and daughter, Mr. and Mrs. Wilf Hogg. The trip was very interesting but the country was very dry. We arrived in Schounavan that evening. Our trip took us through Medicine Hat, Maple Creek, Gull Lake and then south to Schounavan.

Schounavan is a very nice little village with a population of 2,000. Mr. Wilf Hogg is manager of the Canadian Pacific Transportation Company at that point.

We left Schounavan on May 16th and drove to Medicine Hat where we stopped over night with my cousin, Peter Schmaltz.

It rained all that night and on Tuesday due to road conditions

east of Brooks we took the road by way of Lethbridge and Macleod. We encountered lots of slush and mud, but after we got to Taber we had hard surface to Langdon Corner.

South of High River we saw about six inches of snow.

Peter, Matt and Frank Schmaltz and F. A. Lount attended an executive meeting at Drumheller on Friday, May 27th. This was in connection with our Liberal candidate for Bow River, Mr. William McDonald.

Henry Reifsnnyder is busy setting up Massey-Harris combines for Beiseker Motors. I would suggest he make sure all nuts are tight. But the supervisor, J. E. Klem, will see to this.

Peter Ternes was kicked off the diamond by the little fellows at the softball game. Serves you right Peter you should give the other kids a chance!

Watch for posters of a Liberal meeting to be held soon. It is hoped that the Liberal Leader J. Harper Prowse will be the speaker.

Val Schmaltz, the new National agent, is out every night seeking instructions from his opposition on how to grade and take enough dockage so that he can break even.

May 24th Dance

BEISEKER — The Acme B. P. O. E. lodge sponsored a dance in Beiseker Community hall on Tuesday, May 24th. The dance was well attended. All's Rhythm Rascals from Trochu supplied the music. Lunch was served by the Acme Ladies of the Royal Purple in the banquet hall.

Accident Takes
Life of Baby

LEGAL — Little Theresa Casuette, daughter of Henry Casuette, was fatally injured on Friday morning when the front wheel of a light delivery, driven by her father, pinned her to the ground.

Mr. Fred Martineau drove her to Westlock instantly whereupon Dr. Whissel declared the case as hopeless. Twenty-month old Baby Casuette died half an hour later. Although not being the only child, little Theresa will be missed terribly and everybody sympathizes greatly with the shocked family.

The depths of sorrow we cannot tell,
Of the loss of one we loved so well;
And while she sleeps a peaceful sleep
Her memory we shall always keep.

ARE AT STAKE!

You Can Defeat Your Biggest Tax Problem...

That is the 8% sales tax. The one the budget missed. The one that hits you hardest. This quotation

"... This tax costs the Canadian taxpayers 30 cents for every dollar of processed material"

from a Liberal member of Parliament shows what the government is doing to keep taxes high... despite the "bribery" reductions in the budget.

So that you may have a sure, adequate income, the Progressive Conservative Party will

- Reduce sales taxes.
- Provide deductions to farmers for members of family who contribute to revenue.
- Reduce income tax rates and increase exemptions.
- End the administrative persecution of farmers by tax collectors.

For *your* protection the Progressive Conservative Party will take these steps:

PRICES

—Permanent floor price legislation based on these principles:

- A definite formula in the Farm Prices Support Act for arriving at floor prices.
- Floor prices will be announced well in advance of production period.
- The formula will allow for variations in production and demand for individual products.
- The floor price formula will be arrived at in consultation with representatives of producers.

EXPORT MARKETS

Restoration of the Canadian Wheat Board to serve its original purpose as a Marketing Agency for wheat producers... and its extension to include the handling of coarse grains.

Inclusion of representatives of farmer's organizations on all Boards dealing with farm matters.

Aggressive and immediate action to recapture lost markets; the development of new markets; to achieve security of export markets through foresighted negotiations.

Dominion marketing legislation based on the principle of democratic producer control.

PRODUCTION

Reclamation and conservation of existing soil resources; development of new producing lands through irrigation; greater accessibility to domestic markets by improved transportation facilities.

Home and School Meeting Notes

CROSSFIELD. — The regular monthly meeting of the local branch of the Home and School Association was held in the school house on Thursday, May 19. There were 65 members present including several delegates from Carstairs and Madden.

President Mrs. A. Aldred occupied the chair and the meeting was duly opened with the singing of "O Canada." Secretary Mrs. Jean Stevens read the minutes of the last meeting, and with no business arising out of them they were adopted "as read." The president first extended a welcome to the visitors, after which Mrs. Lilley read the roll. The reports of the various committees were next given and all proved having done a good job.

Mr. Mumby then gave a brief outline of the accomplishments of the organization during the last year. This also showed that much good work had been done. Mrs. Stevens stated that all the arrangements for the Graduation banquet had been taken care of, and it looked as though the banquet would be in keeping with all former ones.

Mr. Hector McDonald gave the report of his committee for the nomination of officers for the coming year which were as follows: past-president, Mrs. A. Aldred; president, Mr. F. Laut; vice-president, Mrs. B. Stillings; secretary, Mrs. R. Mumby; treasurer, Mrs. W. Heywood; program, Mrs. W. Charney and Mrs. Mumby; social, Mrs. E. Lilley; finance, Mrs. G. Wood, Mrs. Charney, Mrs. C. Fox, and Miss J. Sweet; membership, Mrs. M. Blair and Mr. S. Kelly; publicity, J. Belshaw; sick, Miss E. Gale and Mrs. M. Borbridge; welcome, Rev. C. W. and Mrs. Anderson; bridge, Mrs. D. Casey and Mr. B. Stillings.

These nominations were all accepted by the meeting and all were duly declared elected.

The secretary read a letter from the Airdrie Home and School Association, extending an invitation to all who wished to join them at their graduation party to be held shortly. A delegate from Carstairs rose and thanked the meeting for its invitation, and extended the invitation to all present to attend the next meeting at Carstairs.

The president then made a presentation to Mrs. Jean Stevens, the retiring secretary, and spoke of the untiring energy put forward by Mrs. Stevens in helping to bring this branch to the high order which it has attained. Mrs. Stevens thanked the meeting for the gift and stated that if at any time she could be of service she would be only too glad to help.

Mr. Mumby moved a hearty vote of thanks to the retiring officers and to the members of the various committees for a good job well done.

Mrs. Aldred next called on the guest speaker of the evening, Mr. F. Laut, stating that he would need no introduction to a Crossfield audience. Mr. Laut spoke on the introduction of the various grains and the marketing of coarse grains under the Government Control program. At the close of his address Mr. Laut was accorded a vote of thanks for his talk which was well received by all present.

The question of the next meeting was discussed and it was decided to hold a meeting in June on the regular evening, the third Thursday in the month.

It was now the ladies' turn to do their part, and under the supervision of Mrs. Nola Becker, the refreshment committee served an excellent lunch.

By means of a contest between the two guests of honor, Miss Giles won the privilege of being the first to open her gifts. Miss Clayholt then opened hers, both being assisted by Miss Jean Liddell and Miss Clarice Clayholt. Both young ladies expressed their appreciation and thanks for the many wonderful gifts.

Trip to Calgary of Gr. 7 and 8

BEISEKER. — Mr. Bunyan's class spent an enjoyable and instructive day in Calgary, Thursday, May 26. The pupils visited the Coste House or 'as usually called the Art Gallery, St. George's Island, where they ate their lunch, and the Palace Bakery. At the latter they were given generous samples of bakery products.

The following men kindly donated their cars for transportation: Messrs. Frank Selzler, L. L. Schmaltz, Peter Schmaltz, E. A. Hagel, Felix Hagel and E. B. Hagel.

Sheep With Most Wool

Pierce Harris, who writes a column for the Atlanta Journal, tells the story of a young preacher, who was "not discouraged by the onslaught of evil against the citadels of goodness" nor the difficulty of securing money but by the fact that fellow Christians "were systematically robbing his little church of its few leaders by a continued system of visitation and appeal."

Mr. Harris expresses the view that the church people of any community, if they want to "spread the word," can work upon the citizens who do not belong to any church. He goes on to say, on the basis of his experience, that "a family has to be worth at least \$5,000 before those evangelistic vandals are interested."

The fact of the matter is that many heathen, in foreign lands, have been mystified by the bitterness and hostility exhibited by the various branches of the Christian religion. They find it difficult to accept the doctrine of Christianity so long as those who profess the faith seem to be unable to get together on a live-and-let-live basis. There is, of course, some point to their observation.

This should not necessarily disturb the Christian because the probability is that those who profess to follow Jesus Christ exhibit a spirit that, on the average, compares favorably with that found on the earth today. After all, it is easy to stand on the sidelines and pick out the flaws in humanity but it is quite different to serve on the battlefield and attempt to overcome the defects.

It is commonly believed that a cross-eyed person always sees double. This is not true. Such a person usually uses only one eye.

ANIMALS HAVE FIELD DAY IN CITY

The spring horse show and the Shrine Circus both took somewhat of a back seat this week compared to the antics of some animals in the Edmonton district.

During the week-end:

(1) Eleven horses ran away from an undisclosed destination, thundered over several gardens and lots in the vicinity of the airport. All but three of the nags returned home, wherever that was.

(2) Two dogs took after two goats in the Calder district. Last reports indicated the dogs had not caught the goats.

(3) A woodpecker made a determined attempt to demolish a stucco and frame apartment building in the West End. Result: a chipped apartment block; a dented beak for the woodpecker.

(4) Earlier two calves had broken out of their pens wandered around the city for awhile and then returned. Two pigs did the same but stayed in the vicinity and uprooted gardens.

Advertising Greater Force Behind Sales Than Ever Before

HAMILTON. — Retailers now recognize newspaper advertising as a greater force behind sales than ever before, John Giesen, director of the retail division, American Newspaper Publishers association's bureau of advertising said.

Mr. Giesen, one of the speakers at the retail clinic of the international affiliation of sales and advertising clubs conference scheduled arrived here today.

He said in an interview that retailers now are investing more money in the medium which produced sales. He saw no ceiling at the moment on retail advertising programs in newspapers.

North Boomtown Hits New Records in May

Edmonton, the west's most rapidly expanding city, continued to hit new records for the month of May.

By the end of last week, home building for this year was twice as great as at the same time last year (1,000 permits issued compared with 622 last year).

Chortled the conservative Edmonton Journal in a news story, "The month is turning out to be the greatest in Edmonton building history."

And no one could deny the figures. Developments were coming so fast during the past two weeks that they were almost too much to keep track of.

Home and industrial building figures continued to soar, and one of the big announcements last week was that a \$1,000,000 South Side steel products plant would be built by Edaco (Canada) Ltd., subsidiary of the British firm's English Drilling Equipment Co. Ltd., and English Steel Corporation Ltd.

NEW PLANT

Construction has begun on four acres between 79 and 80 avenues, on the west side of 101 street, and the plant will eventually turn out oil well drilling bits and mud pump equipment. It plans to have a three-million-dollar turnover each year.

Hundreds of home permits are being issued each month, and dozens of business and industrial firms are expanding. The law and order business has expanded, too, and civic and provincial authorities are discussing enlargement of the city police station.

Edmonton's industrial commissioner, G. W. Curtis, wrote an article for Western Business, and gave figures that would astonish anyone.

PERMITS

Building permit values have increased from \$5 million dollars in 1944 to \$27 million in 1948, and this year's estimates are \$64 million.

These spectacular construction figures are reflected by bank clearing figures, and Mr. Curtis quoted official figures showing that Edmonton's business increased from almost \$218 million in 1940 to almost \$800 million last year.

This city has Canada's busiest airport, and handles more air freight than any city in the world. Landings in 1948 topped all records with a total of 82,500, and this year's is expected to be 100,000.

The population increase has been almost as imposing. In 1940, Edmonton had almost 92,000 people; this year census takers are expected to report an increase of 10,000 over last year to make the total about 136,000—almost 50 per cent in 10 years.

And this week another small sign of Edmonton's reputation as a boom city came forth.

Gene Autry, king of the singing cowboys, contacted the Chamber of Commerce about visiting here.

Missing Men Find Way Back After Much Wandering

Fire Fighters Had Only Dead Hawk to Eat In Day

NORDEGG.—Two Nordegg firefighters, missing since Monday night, wandered into town Wednesday while a crew of 500 combed fireswept timberland in search of them.

Bill Chawrun and Andrew Bunio, separated from a group of 12 firefighters survived for 24 hours in a ravished bushland with only a dead hawk for food.

The men said they left the others after the party became lost in dense underbrush, to try to locate a river or road which would guide them back to camp.

The missing men were part of a crew of 140 volunteer firefighters from Nordegg, 160 miles southwest of Edmonton, brought out to fight a fire. It has been spotted by a lookout patrol 14 miles northeast

"We never should have strayed so far from the others," said Bunio, when he and Chawrun arrived, weak and exhausted.

"We trudged through 10 inches of snow and followed a small creek for ten miles in both directions," Bunio continued.

The two men built a small fire and spent Monday night beside it, before setting out in a blizzard in search of camp or companions.

Meanwhile the other eight members of the missing crew had been found by a search party.

AIR TRAFFIC CONTROL

Britain is establishing air corridors ten miles wide. They will form a system of aviation highways at heights of between 5,000 and 11,000 feet. This will ensure safer flying and prevent collisions between aircraft even in poor visibility. Both civil and military planes will be expected to conform to this new form of control.

Socialism Not Answer To Economic Ills Pope Declares

VATICAN CITY.—Pope Pius has told Roman Catholics that socialism cannot be the answer to the world's economic ills.

The answer must be found in contracts between employers and workers which preserve the authority of the employer while providing for "the prosperity of all the members of the people," the pontiff said.

The Pope spoke a Saturday night to delegations of Roman Catholic employers from Britain, Canada, France, Belgium, The Netherlands and Italy. The text of his speech, delivered in French, was released by the Vatican.

Baby Born to Eskimo Woman in Winnipeg Hospital Sets Record

WINNIPEG. — A 30-year-old Eskimo woman, one of a number of polyomyelitis sufferers brought to hospital here from Chesterfield Inlet, N.W.T., gave birth Sunday to a baby boy. The woman, Lucie Arnapak, has a left arm partially paralyzed by polio.

Named Agluk, the Eskimo youngster is believed to have established a record in that he is the first member of his race born in Winnipeg. Some of the officials at the King George isolation hospital where the mother is under treatment even felt it might be the first instance in history of an Eskimo birth in a North American city.

Lucie and her trapper husband Iyagarnee have three other sons.

U.S. May Bolster Farm Prices

WASHINGTON.—A revolutionary agriculture program was laid before the U.S. congress by the Truman administration during congressional sittings last month.

The proposed program would permit consumer prices to fall but would maintain farm incomes at a permanent high level.

U.S. government subsidization would keep up farmers' incomes.

Under the scheme, food prices would be allowed to fall as a result of competitive trading, but government subsidies paid to farmers would make up the difference between the market price and the return.

The new agriculture formula would assure farmers of an income equivalent to their cash receipts from marketings for the ten years 1939 through 1948.

The recommended program was intended to assure a volume of farm and purchasing power which it is in the public interest to maintain, the U.S. house and senate committees on agriculture were told by secretary of agriculture Charles F. Brannan.
